WORK EXPERIENCE

Social Economic Accelerator Lab (SEAL) | *Remote, Indonesia* | *Aug 2025 - Dec 2025*
Frontend Developer Intern

- Built and developed the Ekosistem Jawa Timur landing page using Next.js and Tailwind CSS, delivering reusable and responsive UI components.
- Translated Figma designs into pixel-accurate, responsive interfaces for the Dastik authentication pages.
- Implemented AOS scroll animations and collaborated through Git-based workflows, code review, and technical documentation.

JanjiNgoding.Id | *Remote, Indonesia* | *Apr 2025 - Jun 2025*
Frontend Developer

- Developed responsive web interfaces using React.js, TypeScript, and Tailwind CSS based on Figma design specifications.
- Built reusable UI components and consistent desktop/mobile layouts, and handled data rendering and UI state across pages.

PT. Lintas Jaringan Nusantara | *Blitar, Indonesia* | *Feb 2026 - Sep 2026*
OLT Network Operator

- Monitored OLT and ONT/ONU devices via OLT Web Management and MikroTik WinBox, maintaining network operations for an estimated 1,500 customers.
- Performed systematic troubleshooting and root-cause analysis on 10-15 service requests per day, and communicated technical issues clearly to non-technical customers.

PROJECT EXPERIENCE

School Website & 360° Virtual Tour (Thesis Project) | *Full-Stack* | *React.js, Express.js, PostgreSQL*

- Developed an integrated school website with a 360° Virtual Tour using React.js, Express.js, PostgreSQL, and Pannellum / React-Pannellum.
- Designed and consumed REST APIs between the React.js frontend and Node.js/Express.js backend using async/await, with error handling and loading states for a stable user experience.
- Implemented full CRUD for school content, posts, teachers, users, and 360° Virtual Tour data through a custom CMS.
- Applied authentication and role-based authorization, modeled relational data in PostgreSQL, and tested API endpoints before integration.

Inventory Management Application | *Final Project - MSIB Batch 6, Course-Net Indonesia*

- Built an inventory management application with Node.js, Express.js, Sequelize ORM, and PostgreSQL, covering full CRUD flows and integration with the client side.

CatatanMu, BookSelf & Personal Portfolio | *Dicoding Indonesia - Fullstack Web Developer*

- Developed note-taking and bookshelf applications using JavaScript, React.js, Webpack, and Node.js, including REST API consumption and client-side state handling.
